Cost: There is a \$16 charge per person which includes books, materials, and black lights to help spot fake id's. ****The fee will be increasing to \$35 per person after the first of November.****

Why get my staff TIPS trained? To ensure that all staff are prepared to prevent intoxication, drunk driving, underage drinking, and other hazards that sometimes accompany the sale and service of alcohol. The TIPS course provides information, skills training, and practice that are customized to your specific work situation, staff will also get certification that lasts for three years, and by having several staff certified it can lower insurance premiums.

If you have any questions please contact Heidi at 269-673-6617 #2714
